WORK EXPERIENCE

Backend Developer | Mediaclock, Ahmedabad (Remote) Feb 2026 – Present

- Shipped an **AI audio pipeline** to production using OpenAI Whisper, GPT-4o and Replicate.
- Designed and built **30+ REST API endpoints** with Express.js, JWT authentication and RBAC.
- Built backends for a **multi-tenant e-commerce platform** with headless storefront APIs (Express.js, TypeScript, PostgreSQL/Prisma) and a **parking reservation platform** (MongoDB/Mongoose, Firebase), including RBAC and third-party API integrations.
- Added real-time features across both platforms with Socket.IO chat and FCM push notifications.
- Developed multiple **Next.js websites** (SSR/SSG) scoring **90+ on Lighthouse**.
- Reduced stale data by **30%** with cron-based cleanup jobs.
- Deployed and maintained backend services on DigitalOcean Droplets with Nginx reverse proxy, SSL certificates and PM2.

Shelynx (shelynx.com)
Order-aggregation platform where customers order SHEIN products through local agents and admins consolidate orders into bulk purchases | Tech: Node.js, Express.js, TypeScript, Socket.IO, Redis, FCM

- Architected the shared Node.js/Express.js (TypeScript) backend serving a **mobile app, web portal and admin dashboard**, secured with JWT and RBAC across customer, agent and admin roles.
- Built **Socket.IO** live chat and **FCM** push notifications to keep users updated on their orders in real time across platforms.
- Integrated third-party APIs and AI-based features, automated workflows with cron jobs, and added **Redis caching** to improve response times and reduce database load.

Real Estate Platform
Full-stack property management system, built end to end from UI to database | Tech: Next.js, React.js, TypeScript, Node.js, Express.js, MongoDB

- Developed a responsive **Next.js/React/TypeScript** frontend with Tailwind CSS, Bootstrap and Motion animations, managing state with Redux Toolkit and Recoil.
- Engineered the **Node.js/Express.js REST backend** on MongoDB/Mongoose, with cron jobs for automated tasks and an **integrated AI chatbot** to assist users.

Software Engineer | Traveltekpro IT Solutions, Ahmedabad May 2024 – Jun 2025

- Built responsive web apps with React.js, Next.js (SSG), TypeScript, Tailwind CSS and Bootstrap.
- Converted Figma designs into reusable components and integrated REST APIs with Redux Toolkit and Recoil, cutting code duplication by **25%**.
- Implemented SEO, AEO and GEO to improve visibility across search and AI answer engines.

Flight Booking Platform

End-to-end travel portal covering search, listing, booking and confirmation | Tech: Next.js, TypeScript, Tailwind CSS, Recoil

- Built the complete **flight booking flow**, converting Figma designs into responsive, reusable UI and integrating APIs end to end.
- Engineered dynamic flight search and filtering with debounced inputs and Recoil state management, minimizing unnecessary re-renders.
- Optimized performance and SEO with SSG, code splitting and lazy loading, raising the Lighthouse performance score from **60 to 90**.

React Developer (Internship) | Conceptserve Technologies, Ahmedabad Dec 2023 – Mar 2024

- Developed mobile and web apps with React Native and React.js, collaborating with a team of developers in an Agile environment and delivering features on sprint deadlines.
